1. Installing the SIM Card

Remove the back cover of the device and insert the SIM card according to the orientation shown on the product label.

Important: Before use, remove the insulation film from the battery contacts.

2. Wi-Fi Connection

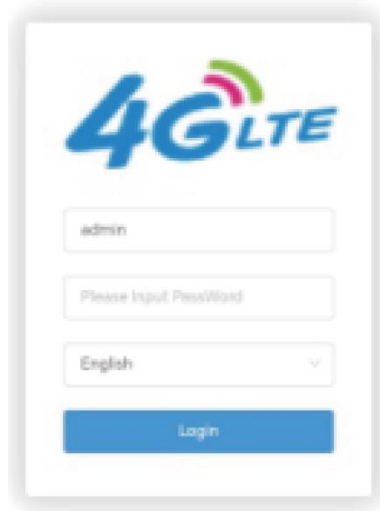

Press and hold the power button for approximately **6 seconds** to turn on the device. Once powered on, the green indicator light will remain steady, and it will begin to flash slowly when a user connects.

- **Wi-Fi Name (SSID):** 4G-MIFI-XXXX
 - **Password:** 1234567890
-

3. Accessing the Management Interface

Connect your computer or smartphone to the device's Wi-Fi network.

Open a web browser and enter **192.168.100.1** in the address bar to access the login page.

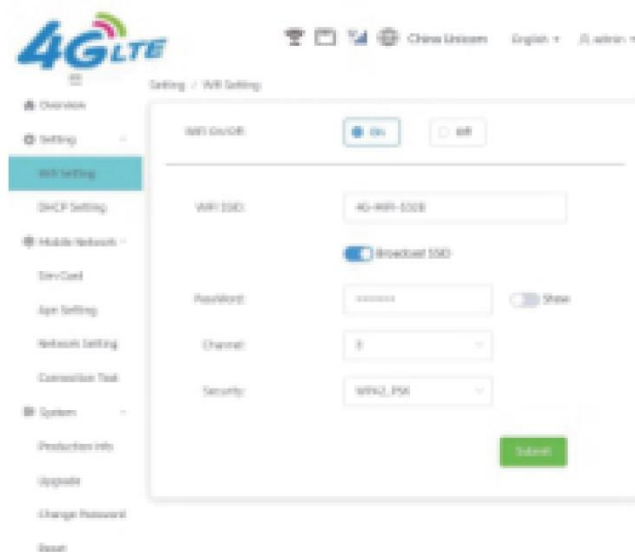

- **Default Username:** admin
 - **Default Password:** admin
- (Note: Both username and password are lowercase.)*
-

4. Changing the Wi-Fi Name and Password

From the main menu, navigate to:

Home → WLAN Access Point Settings

Modify the **Wi-Fi Name (SSID)** and **Password**, then click **Change** to save your settings.

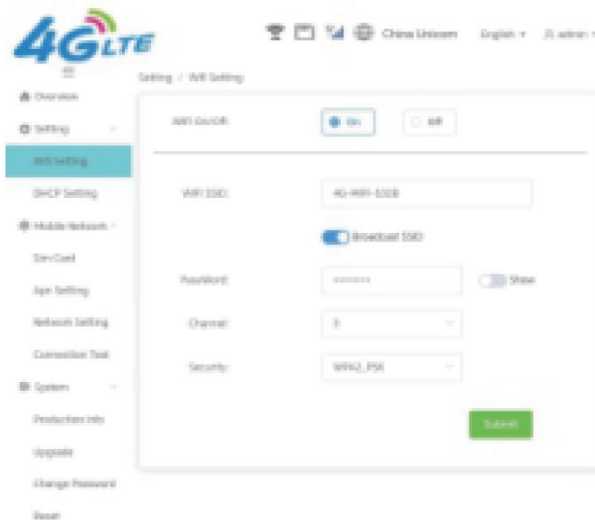

5. Configuring APN Settings (For Specific SIM Cards)

Some SIM cards require manual APN configuration to access the Internet.

Navigate to:

Home → Advanced Settings → APN

Click **Add**, enter the required APN information, then select **Change → Set as Default** to apply the settings.

INSTRUCTIONS FOR RECYCLING AND DISPOSAL:

This label means that the product cannot be disposed of as other household waste throughout the EU. To prevent potential damage to the environment or human health from uncontrolled waste disposal. Recycle responsibly to promote the sustainable use of material resources. If you want to return a used device, use the drop-off and collection system, or contact the retailer from whom you bought the product. The retailer can accept the product for environmentally safe recycling.

A declaration by the manufacturer that the product complies with the requirements of the applicable EU Directives.
