EN: USBORA – USER MANUAL

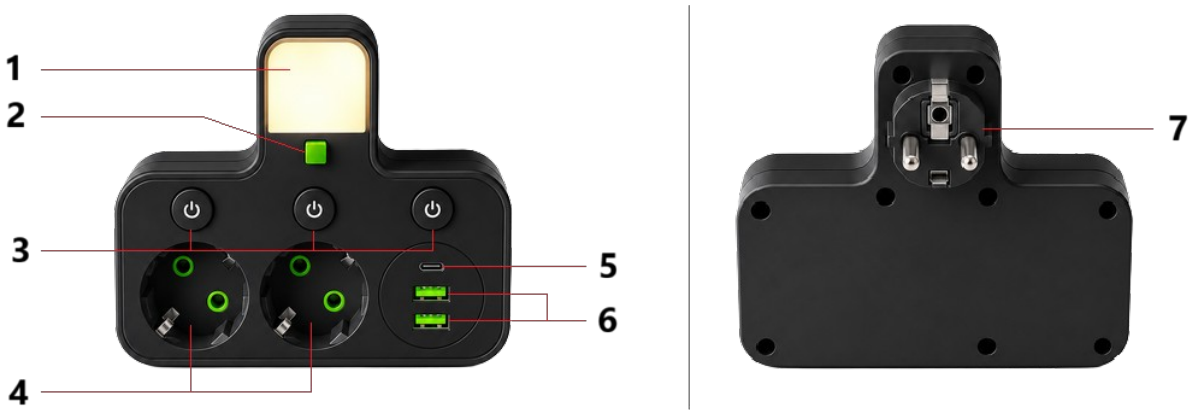

Socket Distributor with USB Charging Ports and LED Light

Thank you for choosing the USBORA Socket Distributor. Please read this manual carefully before using the product and keep it for future reference.

PRODUCT SPECIFICATIONS

Input: 220–240 V~ 50/60 Hz, 10 A max.
Max. total mains load: 2500 W
USB Output: 5 V ⎓ 2.1 A max. total (shared)
Mains sockets: 2 × 220–240 V~
USB ports: 2 × USB-A + 1 × USB-C
Dimensions: 14.5 × 12 × 3.5 cm (excluding plug)
Plug type: European grounded plug
LED light: 2.5 × 2.5 cm, 5600 K

PRODUCT OVERVIEW

1. **LED light**
2. **LED light switch (green button)**
3. **Mains/USB power switches**
4. **Mains output sockets**
5. **USB-C port**
6. **USB-A ports**
7. **European grounded plug**

SAFETY INSTRUCTIONS

WARNING! Read all safety instructions before use.

- Use the product only with a suitable 220–240 V~ electrical supply.
- Do not exceed the maximum total mains load of **2500 W**.
- The maximum load applies to the combined load of both mains sockets.
- Do not connect appliances with a combined power consumption exceeding the rated load.
- Do not use the product in wet or damp environments or expose it to water or other liquids.
- Keep the product away from high temperatures, direct sunlight, open flames, and other sources of heat.

- Do not use the product in environments exposed to excessive dust, moisture, or other harsh conditions.
- Do not cover the product while it is in use.
- Do not insert foreign objects into the mains sockets or USB ports.
- Do not use the product if it is damaged, cracked, deformed, or shows signs of overheating.
- Disconnect the product from the wall socket when it is not in use.
- Do not attempt to disassemble, modify, or repair the product yourself. Repairs must be carried out by a qualified professional.
- Keep the product away from children and use it only as intended.

OPERATION

Connecting the Product

1. Insert the plug fully into a suitable 220–240 V~ wall socket.
2. Connect your electrical devices to the mains sockets as required.
3. Connect compatible USB devices to the USB-A or USB-C ports.
4. Use the individual power switches to activate or deactivate the corresponding outputs.
5. Make sure all connected devices remain within the rated load of the product.

LED Light

The integrated LED light is controlled by the **green button located below the light**. Press the green button to switch the LED light on. Press the green button again to switch the LED light off.

USB Charging

Connect a compatible USB-powered device to any of the USB-A or USB-C ports and switch on the corresponding power switch if required. The three USB ports have a **combined maximum output of 5 V ⎓ 2.1 A**. The available current is shared between the connected USB devices.

Mains Sockets

The two mains sockets can be used to power compatible electrical appliances. The **combined load of both mains sockets must not exceed 2500 W**. When using more than one appliance simultaneously, add their power ratings together to ensure that the total remains within the rated limit.

CLEANING, MAINTENANCE AND STORAGE

- Disconnect the product from the wall socket before cleaning.
- Clean the product with a soft, dry cloth.
- Do not use water, solvents, abrasive cleaners, or other chemicals.
- Keep the product and its sockets free from dust and debris.
- Inspect the product regularly for signs of damage, overheating, or discoloration.
- Do not use the product if it has been damaged or exposed to water.
- When not in use, disconnect the product from the wall socket and store it in a clean, dry place away from direct sunlight, moisture, and excessive heat.

INSTRUCTIONS FOR RECYCLING AND DISPOSAL:

This label means that the product cannot be disposed of as other household waste throughout the EU. To prevent potential damage to the environment or human health from uncontrolled waste disposal. Recycle responsibly to promote the sustainable use of material resources. If you want to return a used device, use the drop-off and collection system, or contact the retailer from whom you bought the product. The retailer can accept the product for environmentally safe recycling.

CE

A declaration by the manufacturer that the product complies with the requirements of the applicable EU Directives.
