

EN: VENTORIS – USER MANUAL

PRODUCT SPECIFICATIONS

Models: FD100 (small), FD150 (medium)

Power: 40W

Voltage: 220V

Rated Frequency: 50Hz

PRODUCT OVERVIEW:

PRODUCT INSTALLATION AND SAFETY INSTRUCTIONS

This product is not intended for standalone use. It must be connected to compatible ventilation components such as flexible ducting or exhaust tubing.

- Before use, ensure that the tubing is securely fastened to VENTORIS by attaching a plastic or metal band clamp around both the VENTORIS outlet and the tubing. This helps maintain a firm connection and ensures proper airflow. Verify that all connections are secure and that there are no visible damages to the unit or tubing before powering on.

- Install VENTORIS in a location where the electrical wiring is easily accessible. Connect the device to a suitable power source matching the voltage and frequency specifications indicated on the product label.
- Keep the product and its tubing away from heat sources, open flames, or flammable materials. Do not place aluminum ducting near electrical equipment or live wiring.
- The outlet end of the tubing should be positioned in a suitable outdoor location, safely away from people, pets, and sensitive objects, to ensure safe and effective ventilation.

DEVICE OPERATION

To operate the device, it is necessary to provide a proper power supply. You can choose between the following options:

1. **Purchase a cable with an integrated switch**, which allows easy connection and operation of the device.
2. **Connect the device directly to the existing electrical wiring** in your home.

Operation warnings:

- **Important:** Installation and connection must be performed **only by a qualified professional**, as incorrect connection can lead to injuries.
- **Do not operate VENTORIS in environments with explosive gases, corrosive vapors, or extreme humidity.**
- **Do not obstruct the airflow.** Never insert fingers, tools, or objects into the fan inlet or outlet while the unit is running.
- **Never operate the product if there are any obstructions inside.**

DEVICE CARE AND MAINTENANCE

- Disconnect power before performing any maintenance or cleaning. **Only authorized personnel should perform repairs or electrical servicing.**
- Regularly inspect the fan and ducting for dust buildup, debris, or signs of wear. Clean the outer casing with a dry or slightly damp cloth; avoid using abrasive cleaners or solvents.
- Check the fan blades through the inlet for dust accumulation every 3 to 6 months. If accessible, carefully clean with a soft brush or compressed air without disassembling the unit.
- Ensure the clamps remain tight and secure to prevent air leaks and maintain performance. Replace any damaged or worn clamps promptly.
- If unusual noise, vibration, or reduced airflow is detected, turn off the unit immediately and inspect for obstructions or damage.

TROUBLESHOOTING TIPS

- **No power / unit does not start:** Check the power supply and fuse. Confirm that the unit is properly plugged in and switched on.
- **Reduced airflow:** Inspect the ducting for kinks, obstructions, or leaks. Ensure clamps are tight and tubing is not damaged. Clean any dust buildup on the fan blades if possible.
- **Unusual noise or vibration:** Check for foreign objects inside the fan casing or tubing. Verify the unit is firmly mounted and tubing secured. If problem persists, contact authorized service.
- **Overheating or burning smell:** Immediately switch off the unit and disconnect power. Do not attempt to operate until inspected by a qualified technician.

INSTRUCTIONS FOR RECYCLING AND DISPOSAL:

This label means that the product cannot be disposed of as other household waste throughout the EU. To prevent potential damage to the environment or human health from uncontrolled waste disposal. Recycle responsibly to promote the sustainable use of material resources. If you want to return a used device, use the drop-off and collection system, or contact the retailer from whom you bought the product. The retailer can accept the product for environmentally safe recycling.

A declaration by the manufacturer that the product complies with the requirements of the applicable EU Directives.

EU DECLARATION OF CONFORMITY

Manufacturer: SPATZ GLOBAL LIMITED

Address: UNIT 3A-8,12/F, KAISER CENTRE, No. 18 CENTRE STREET, SAI YING PUN, HONG KONG

Phone: 18505815587
